

EXPERIENCE TRAVEL TOGETHER

Established in 1981, our story is personal and it started with a passion. In 1981 founder and CEO John Tribble combined his passion for travel with a love of watching others discover new destinations. He began to create trips and activities that challenged the mind, brought people together and captured dreams in unexpected ways. Since then, Good News Travels has had the privilege of sharing private group travel journeys with hundreds of thousands of adults and students.

Our TRiO tours are designed for students to learn and explore cities and cultures outside the classroom. We provide students a world of travel experiences that immerse them in knowledge, culture, friendships, and inspiration. Tour packages are entirely customizable to best fit your group's needs, schedule, and budget.
